

1

Select the padding level

SMP4BIKE Professional line models are divided in the table on the right based on the padding level, starting from **Carbon** models and models **without padding**, to models with **high padding**.

2

What's your pant size?

The models most suited to your physical build are marked with the 🖱️ symbol in the column that matches your pant size.

Based on the previously selected padding level, find one or more models to choose from for the road test*.

All models are **UNISEX**.

3

Test the saddle

Visit our website, send us an e-mail or call us to find your nearest **SMP4TEST dealer**. You can test a saddle on your bike without any purchase obligations. A short adjustment period may be required for the new saddle: to guarantee the reliability of the test, you should ride the saddle at least four-five times, making the necessary adjustments.

For further information on assembly and adjustments, see the instructions at: www.sellesmp.com/smp4bike/en/support/assemble-and-adjust-saddle

A SADDLE

			2 What's your pant size?							JUNIOR (6-12 years old)								
			MEN		WOMEN
